

SARA HASHEMZADEH

Architectural Designer

Helmond, NL · Eligible to work in the Netherlands · Open to relocate

sarahha7495@gmail.com | [LinkedIn](#) | +31616348329

PROFILE

I've always been interested in what happens between an idea and the finished space, how a sketch becomes a layout, a material choice, or something people can actually use. Moving between architecture, interiors and real renovation projects has shaped the way I approach design: visually, practically and with attention to detail. I enjoy exploring ideas, solving spatial problems and learning through the process. Now, I'm looking to bring this mindset into a design-focused team and continue growing as an architectural designer.

EXPERIENCE

Architectural Designer | Archilabo, Milan

2023 – August 2026

Renovation · Building permit · Project Coordination

- Developed technical documentation and construction drawings for 30+ residential renovation projects in Italy.
- Produced architectural drawings and project presentations from design development through permit submission.
- Conducted site surveys and coordinated design information with architects, consultants, and clients.
- Ensured drawings complied with local regulations while managing multiple concurrent projects.

Design & Production Coordinator, Custom Furniture | ADVA Gallery, Iran

2015 – 2020

Furniture · Client Support · Production Support

- Guided clients through the design and ordering process for custom furniture and interior products.
- Coordinated with craftsmen and suppliers to translate client requirements into production-ready drawings.

SELECTED PROJECTS & COMPETITIONS

JanubioHorizon — Boutique Luxury Hotel | Archiol Competition — Honorable Mention

Spain

- Led concept, massing, and design development independently, with structural and technical consulting from one engineering teammate.

Sama Sopi — Nursery | Kaira Looro Competition

Senegal

- Led design development, spatial planning, material strategy, and courtyard/classroom organization; in a two-person team, with structural and technical development from an engineering teammate.

Hope Horizon Academy — School and Kindergarten | Master's Thesis

Moshi, Tanzania

- Directed concept design, environmental strategy, and visualization with one thesis partner, developing a climate-responsive building skin that filters sunlight and drives natural ventilation while allowing spaces to adapt between different modes of learning and gathering.

SKILLS

Software: Rhino 3D, Enscape, AutoCAD 2D, Adobe Photoshop, Midjourney, Gemini (AI-assisted visualization)

Languages: Persian (Native), English (Professional), Dutch (Basic, A1 — actively improving)

EDUCATION

M.Sc. Building and Architectural Engineering | Politecnico di Milano

2020 – 2023

B.Sc. Architectural Engineering | Azad University of Tehran

2014 – 2019

Leadership Certificate | Politecnico di Milano, Center for Leadership, Lecco

October 2023

Awarded for completion of certificate requirements and leadership development.
